FTI Consulting, Inc. (together with its wholly owned subsidiaries, contractors and employees, the “**Applicant**” or “**FTI**”), financial advisor to the Official Committee of Unsecured Creditors (the “**Committee**”) of the above captioned debtors and debtors in possession (collectively, the “**Debtors**”), hereby submits its Third Interim Fee Application (the “**Fee Application**”) for allowance of compensation for professional services performed by FTI for the

1 period commencing October 1, 2019 through and including January 31, 2020 (the “**Application**  
2 **Period**”) and reimbursement of its actual and necessary expenses incurred during the  
3 Application Period, and respectfully represents as follows:  
4

## 5 **INTRODUCTION**

6  
7 1. FTI provided services to the Committee in accordance with the instructions and  
8 directions of the Committee. FTI is compensated on an hourly fee basis, plus reimbursement of  
9 actual and necessary expenses incurred.

10 2. By this Fee Application, FTI seeks allowance of (i) compensation for actual and  
11 necessary professional services rendered by FTI as financial advisor to the Committee for the  
12 Application Period in the amount of \$3,930,398.50 and (ii) reimbursement for expenses incurred  
13 in the amount of \$19,098.79, for a total of \$3,949,497.29. These amounts reflect voluntary  
14 reductions for certain fees and expenses in aggregate of \$91,970.00 and \$1,076.26, respectively.  
15 Fee reductions include adjustments for non-working travel time, transient timekeepers, and the  
16 number of professionals at meetings and conference calls. Expense reductions include certain  
17 hotel and meal caps per the proposed Fee Examiner protocol.  
18

19 3. The statutory bases for the relief requested herein are sections 330, 331, and 1103  
20 of title 11 of the United States Code (the “**Bankruptcy Code**”), Rule 2016 of the Federal Rules  
21 of Bankruptcy Procedure (the “**Bankruptcy Rules**”), the Local Rules for the United States  
22 Bankruptcy Court for the Northern District of California (the “**Local Rules**”), and the *Order*  
23 *Pursuant to 11 U.S.C §§ 331 and 105(a) and Fed. R. Bankr. P. 2016 for Authority to Establish*  
24 *Procedures for Interim Compensation and Reimbursement of Expenses of Professionals*, entered  
25 on February 27, 2019, [ECF No. 701] (the “**Interim Compensation Order**”).  
26

27 4. This Fee Application summarizes the services rendered by FTI on behalf of the  
28 Committee during the Application Period. While it is not possible or practical to describe each

1 and every activity undertaken by FTI, FTI has maintained contemporaneous time records which  
2 include a detailed chronology of the daily services rendered, describing the precise nature of the  
3 work, the specific tasks performed, and the time expended by each professional. A breakdown of  
4 the hours and fees by professional is annexed hereto as **Exhibit A**. A breakdown of the hours  
5 and fees by task code is annexed hereto as **Exhibit B**. A detailed copy of the time records for the  
6 Application Period is annexed hereto as **Exhibit C**. FTI has shared a budget of its fees for the  
7 Application Period with the Committee.  
8

9 5. FTI has incurred out-of-pocket disbursements during the Application Period  
10 broken down into categories of charges itemized in **Exhibit D**. A detailed breakdown of these  
11 charges is annexed hereto as **Exhibit E**. Each charge incurred by FTI was necessary and  
12 reasonable and was incurred as a direct result of FTI's representation of the Committee.  
13

14 6. In accordance with the Interim Compensation Order, FTI has requested payment  
15 for 80% of the fees for actual and necessary services incurred during the Application Period in  
16 the amount of \$3,144,318.80 and for 100% of the expenses incurred in the amount of \$19,098.79  
17 for a total amount of \$3,163,417.59. FTI submitted the following monthly statements (each a  
18 "**Monthly Fee Statement**") during the Application Period.<sup>3</sup>

- 19 i. On December 23, 2019, FTI filed the *Statement of Monthly Fees of FTI*

24 of expenses in the amount of \$1,799.21 (and is owed \$1,799.21 to date).

25  
26 7. To date, FTI has been paid \$1,048,153.09 by the Debtors for services rendered  
27 and expenses incurred, with \$2,901,344.20 remaining outstanding. Of this amount, \$786,079.70  
28

1 will be retained pursuant to the Interim Compensation Order (the “**Holdback**”). FTI is filing this  
2 Fee Application to, in part, seek payment of the Holdback.

### 3 4 **JURISDICTION**

5 8. This Court has jurisdiction over this Fee Application pursuant to 28 U.S.C. §§  
6 157 and 1334. This matter is a core proceeding within the meaning of 28 U.S.C. § 157(b)(2).  
7  
8 Venue of this proceeding and this Application in this District is proper pursuant to 28 U.S.C. §§  
9 1408 and 1409.

### 10 11 **BACKGROUND**

12 9. On January 29, 2019 (the “**Petition Date**”), the Debtors filed with the United  
13 States Bankruptcy Court for the Northern District of California (this “**Court**”) their voluntary  
14 petitions for relief under chapter 11 of the Bankruptcy Code. For the bankruptcy process, the  
15 Debtors selected Weil, Gotshal & Manges LLP as counsel (“**Weil**”), Keller & Benvenuti LLP as  
16 co-counsel, AP Services, LLC (“**APS**”) to provide a chief restructuring officer, and Lazard  
17 Frères & Co. LLC as its investment banker (“**Lazard**”).

19 10. The Debtors continue to operate their businesses and manage their assets as  
20 debtors in possession pursuant to sections 1107 and 1108 of the Bankruptcy Code. No trustee or  
21 examiner has been appointed in the Chapter 11 cases.

22 11. On February 12, 2019, the Office of the United States Trustee for Region 3 (the  
23 “**US Trustee**”) filed a *Notice of Appointment of the Official Committee of Unsecured Creditors*  
24 [ECF No. 409] pursuant to 11 U.S.C. § 1102(a). At the Formation Meeting, the Committee  
25 selected Milbank LLP (“**Milbank**” or “**Counsel**”) as its counsel and selected FTI as its financial  
26 advisor. On February 15, 2019, the Committee selected Centerview Partners LLC as its  
27 investment banker (“**Centerview**”). On March 20, 2019, the Office of the United States Trustee  
28

1 for Region 3 (the “**US Trustee**”) filed an *Amended Notice of Appointment of the Official*  
2 *Committee of Unsecured Creditors* [ECF No. 962] pursuant to 11 U.S.C. § 1102(a).

3 12. The following nine members comprise the Committee: (a) BOKF, N.A., as  
4 indenture trustee under unsecured bond indentures; (b) Deutsche Bank National Trust Company  
5 and Deutsche Bank Trust Company Americas; (c) NextEra Energy, Inc.; (d) Roebbelen  
6 Contracting, Inc.; (e) The Davey Tree Expert Company, Davey Tree Surgery Company, and  
7 DRG, Inc.; (f) G4S Secure Solutions (USA) Inc. and G4S Secure Integration LLC; (g)  
8 International Brotherhood of Electrical Workers, Local 1245; (h) Pension Benefit Guaranty  
9 Corporation; (i) Mizuho Bank, Ltd.<sup>4</sup>

11 13. On May 28, 2019, the Court entered the *Order Authorizing the Official Committee*  
12 *of Unsecured Creditors to Retain and Employ FTI Consulting, Inc. as Financial Advisor Nunc Pro*  
13 *Tunc to February 12, 2019* [ECF No. 2252] (the “**Retention Order**”).

#### 16 **TERMS AND CONDITIONS OF EMPLOYMENT**

17 14. FTI is compensated on an hourly fee basis, plus reimbursement of actual and  
18 necessary expenses incurred. For further information regarding the terms and conditions of FTI’s  
19 retention, please see the Retention Order.

#### 22 **SUMMARY OF SERVICES RENDERED**

23 15. The Debtors’ chapter 11 cases have presented numerous large and complex issues  
24 that had to be addressed in order to preserve and maximize value for unsecured creditors. The  
25 Retention Order authorized FTI to render financial advisory services to the Committee.

28  

---

<sup>4</sup> Western Asset Management Company, LLC resigned from the Committee and Mizuho Bank, Ltd. was added to the Committee on March 20, 2019 [ECF No. 962].

1           16.     FTI professionals attend and participate in numerous meetings and conference  
2 calls with the Committee and its advisors, and the Debtors and their professionals. These chapter  
3 11 cases pose complex, often interrelated issues that frequently require the attendance of  
4 multiple team members at these meetings and conference calls. Such participation facilitates the  
5 sharing of information among professionals handling different, but related, work streams and  
6 possessing different areas of expertise that are brought to bear on a variety of issues. FTI has  
7 determined that having such participants in attendance allowed FTI to provide services to the  
8 Committee in a more cost-effective manner.

10           17.     The primary services rendered by FTI include, but are not limited to, the  
11 categories set forth below. FTI's Fee Application and project billing format is generally  
12 consistent, or substantially conforms, with the concepts in the Local Guidelines.

14                   **Task Code 2: Cash & Liquidity Analysis**

15                   **Fees: \$51,826.00**

17                   **Total Hours: 91.8**

18           19.     During the Application Period, FTI monitored the Debtors' liquidity position and  
19 analyzed the Debtors' cash flow activity compared to the initial DIP budget and subsequently  
20 updated forecasts. Time in this task code included review of the Debtors' underlying  
21 assumptions for the revised 13-week cash flow forecasts. FTI conducted diligence with the  
22 Debtors to understand the assumptions and drivers of the cash flow forecasts, as well as  
23 explanations for variances between the forecasts and actual results. FTI also monitored certain  
24 cash activity pursuant to first and second day relief, including e.g., payments to lien claimants  
25 and operational integrity suppliers. FTI prepared periodic reporting to the Committee regarding  
26 the Debtors' actual versus forecast cash flow activity, updated forecasts, and liquidity position.  
27  
28

**Task Code 7: Analysis of Business Plan**

**Fees: \$481,995.50**

**Total Hours: 801.4**

20. Time in this task code during the Application Period includes detailed analysis of the Debtors' business plan initiatives and planned capital spend for the next five years, as well as the assumptions underlying the related financial projections, review of the detail of rate case filings, as well as the review of industry reports. In connection with the diligence of the Debtors' projections, FTI developed a business plan model to facilitate the evaluation of key business drivers, operating structure considerations, and sensitivity scenarios. FTI analyzed the Debtors' assumptions underlying their projections, including operating expenses, capital expenditures, cost savings, and regulatory-related impacts. FTI also evaluated the business plan assumptions corresponding to the competing plan proposal proposed by the Ad Hoc Noteholders Group. FTI participated in numerous business plan diligence meetings with both the Debtors' management and advisors, as well as with the Ad Hoc Noteholders Group's advisors. Time spent in this task code also includes the preparation of related analyses requested by the Committee.

**Task Code 10: Analysis of Tax Issues**

**Fees: \$194,867.50**

**Total Hours: 231.2**

21. Time in this task code relates to analyses conducted to understand and evaluate the potential tax implications and cash flow impacts of various tax scenarios for the competing plan proposals, including: analysis of the usage of pre- and post-petition net operating losses and other tax attributes, evaluation of the implications of qualified settlement fund versus grantor trust structures, and analysis of a potential ownership change on the Debtors' tax attributes. FTI

1 developed a detailed tax model to perform these analyses and prepare sensitivities for different  
2 scenarios. FTI's work in this area was used to educate the Committee on the tax considerations  
3 of the different plans and their potential impact on the Debtors' financial projections.

4  
5 **Task Code 11: Prepare for and Attendance at Court Hearings**

6 **Fees: \$30,789.00**

7  
8 **Total Hours: 38.6**

9 22. Time in this task code relates to attendance in hearings in the Bankruptcy Court  
10 on motions and topics relevant to the services performed by FTI, as described in the task code  
11 descriptions in this Fee Application, including but not limited to: plan of reorganization  
12 exclusivity, the restructuring support agreement between the Debtors and Ad Hoc Subrogation  
13 Group, and the restructuring support agreement among the Debtors, the Official Committee of  
14 Tort Claimants (the "**TCC**"), the Consenting Fire Claimant Professionals, and the Shareholder  
15 Proponents.  
16

17  
18 **Task Code 16: POR & DS - Analysis, Negotiation and Formulation**

19 **Fees: \$266,734.00**

20 **Total Hours: 287.4**

21 23. Time in this task code relates to the evaluation of the potential terms and  
22 conditions of a plan of reorganization, as well as the analysis and comparison of the different  
23 plans proposed by parties, including the Debtors, the Ad Hoc Noteholders Group, the Ad Hoc  
24 Subrogation Group, the TCC, the Consenting Fire Claimant Professionals, and the Shareholder  
25 Proponents. FTI participated in meetings, including a mediation session, with certain plan  
26 proponents to discuss their proposals. FTI performed extensive diligence on the components of  
27 the plan proposals, including but not limited to, the sources and uses of cash, treatment of  
28

1 general unsecured and other creditors by class, size and structure of wildfire claims trusts,  
2 conditions precedent to effectiveness and funding, and treatment of pension obligations,  
3 employees, and other contracts (e.g., PPA, vendors, etc.). Additionally, FTI evaluated pleadings  
4 with respect the proposed termination of the Debtors' exclusivity period to file a plan of  
5 reorganization. FTI worked with Counsel to analyze the positions of different stakeholders and  
6 develop recommendations for the Committee with respect to the Debtors' exclusivity and plan  
7 proposals.  
8

9  
10 **Task Code 20: General Meetings with Debtors & Debtors' Prof**

11 **Fees: \$23,373.00**

12 **Total Hours: 23.4**

13 24. Time in this task code relates to calls with the Debtors and their professionals  
14 during the Application Period to discuss case-related issues, including e.g., proposals for a plan  
15 of reorganization, mediation developments, and business plan updates. FTI also participated in  
16 bi-weekly status calls with the Debtors to discuss current key topics, such as potential claims  
17 exposure, competing plan proposals, employee compensation matters, public safety power  
18 shutoffs, CPUC OII proceedings, and ongoing diligence related to the aforementioned topics.  
19  
20

21 **Task Code 21: General Meetings with UCC & UCC Counsel**

22 **Fees: \$164,358.50**

23 **Total Hours: 175.7**

24 25. Time in this task code relates to meetings with the Committee, individual  
25 Committee members, and/or with Counsel to discuss case-related issues. FTI participated in a  
26 weekly call with the Committee and a separate weekly call with Committee advisors to discuss  
27 case-related issues, strategy, and the status of work streams and deliverables.  
28

**Task Code 22: Meetings with Other Parties**

**Fees: \$77,160.50**

**Total Hours: 100.8**

26. Time in this task code relates to calls and meetings held with case stakeholders and parties other than the Debtors, the Committee, and their professionals. During the Application Period, FTI professionals participated in calls and meetings with representatives of the TCC, the Ad Hoc Noteholders Group, and the Governor's Office to discuss case related issues. FTI also performed media outreach and fielded press inquiries on behalf of the Committee.

**Task Code 26: Prepetition Wildfire Claims**

**Fees: \$1,371,432.00**

**Total Hours: 2,128.5**

27. During the Application Period, FTI continued its analysis of filed proofs of claims and data produced through the BrownGreer portal, as well as public information sources, among other data, in order to assess the nature and quantum of various categories of claims related to the 2018 Camp Fire and 2017 North Bay Fires. FTI applied independent approaches to assess and refine the ranges of claims exposure by type of claim. In addition:

28. FTI insurance specialists reviewed available information on insured losses with respect to wildfires to identify the types of claims that have been or may be asserted against the Debtors, and prepared and updated models to estimate the potential ranges of property claims. This analysis was further informed by various statistics, including e.g., households affected, acres impacted, and property values, as well as information on prior wildfire claims settlements.

1           29.     FTI damage claims specialists reviewed available information on uninsured  
2 claims, including non-property claims, to evaluate additional categories of claims (e.g.,  
3 emotional distress, wrongful death, etc.). FTI developed methodologies, updated damage  
4 models, and other statistical analyses to estimate the potential exposure with respect to each  
5 claims category. FTI damage claims specialists also considered the process to assess the validity  
6 of and refine estimates of underinsured and uninsured claims.  
7

8           30.     FTI also worked with Counsel to prepare for potential expert witness testimony  
9 with respect to certain of the analyses above and reviewed initial document disclosures and  
10 information productions from the experts of other constituencies.

11           31.     FTI participated in regular calls with the Committee's wildfire claims  
12 subcommittee. Preparation in advance of these calls included the creation of presentations on the  
13 aforementioned topics. Time in this task code also included calls with case stakeholders,  
14 including the Ad Hoc Noteholders Group, to discuss the prepetition wildfire claims. FTI  
15 prepared reports for the Committee analyzing the claims and potential ranges of exposure by  
16 category.  
17

18  
19           **Task Code 27: Regulatory and Legislative Matters**

20           **Fees: \$101,529.50**

21           **Total Hours: 147.0**

22  
23           32.     During the Application Period, FTI conducted analysis of various senate and  
24 assembly bills and various senate proposals impacting the Debtors and the utilities industry. FTI  
25 also analyzed the impact of AB1054 on the Debtors' bankruptcy proceeding and plan of  
26 reorganization development process.

27           33.     FTI also monitored and reviewed the status of various regulatory proceedings,  
28 including CPUC Orders Instituting Investigation, including with respect to power shut-offs, the

1 Northern California Wildfires, and Locate and Mark proceedings in order to assess the  
2 implications on the Debtors and its operations.

3 34. FTI analyzed several key regulatory and legislative reports, as part of a broader  
4 effort to understand and respond to public-facing developments. Analysis of regulatory, political  
5 and legislative reports enabled FTI's public affairs experts to prepare communications materials  
6 for lawmakers and reporters on the Committee's public stance on various regulatory and  
7 legislative developments.  
8

9  
10 **Task Code 29: Future Claims Risk Modeling**

11 **Fees: \$144,512.00**

12 **Total Hours: 225.0**

13 35. During the Application Period, FTI continued to develop approaches to estimate  
14 and quantify postpetition and future wildfire risk levels and associated claims. FTI damage  
15 claims specialists reviewed information including but not limited to historical wildfire data, the  
16 Debtors' and competitors' risk models and filings, the location and magnitude of high fire threat  
17 districts, the transmission and distribution mileage and asset exposure of the Debtors' service  
18 territory, utility ignition rates, and weather data in connection with power shutoff events in order  
19 to develop and refine models of risk and damages estimates. FTI also evaluated the  
20 characteristics and potential liabilities on account of postpetition fires, such as the Kincade Fire.  
21 Time in this task code also included meetings with Counsel to discuss the analyses with respect  
22 to postpetition and future wildfires risk and damages.  
23  
24

25  
26 **Task Code 30: Wildfire Mitigation Plan**

27 **Fees: \$98,623.00**

28 **Total Hours: 153.8**

1           36.     During the Application Period, FTI monitored the Debtors' ongoing wildfire  
2 mitigation efforts, and in particular, the implementation and status of the Debtors' Wildfire  
3 Safety Plan ("**WSP**"). FTI evaluated the operational approaches included in the WSP with  
4 respect to inspection programs, vegetation management, system hardening, public safety power  
5 shutoffs, situational awareness, and alternative technologies, among others. FTI also reviewed  
6 public coverage with respect to the Debtors' wildfire mitigation activities and the Debtors' status  
7 to date relative to targets. FTI also participated in regular calls with the Committee's Wildfire  
8 Mitigation Subcommittee. Preparation in advance of these calls included the creation of  
9 presentations on the aforementioned topics.  
10

11  
12           **Task Code 31: Public Affairs**

13           **Fees: \$216,308.00**

14           **Total Hours: 405.0**  
15

16           37.     During the Application Period, FTI public affairs experts developed a series of  
17 messaging and communications materials to help the Committee communicate its positions on  
18 various developments related to PG&E's bankruptcy and wildfire liability reform efforts in the  
19 state. FTI developed messaging to articulate to key audiences who the Committee is, their  
20 positions, and what's at stake in the restructuring of PG&E. FTI also developed messaging on  
21 AB1054, termination of the Debtors' exclusivity period to file a plan of reorganization, and the  
22 recent power shutoffs among other topics and developments. This Application Period saw  
23 increased activity as a result of (i) a new California legislative session starting in January 2020  
24 and (ii) significant announcements being made by Governor Newsom and his office.  
25

26           38.     FTI used key messages to advance media and government outreach efforts on  
27 behalf of the Committee. FTI also shared statements with reporters, educated reporters on the  
28 Committee's position, and facilitated discussions with local/regional and national reporters. FTI

1 worked with Axiom Advisors to prepare updates for the Public Affairs Sub-Committee. FTI also  
2 developed and maintained a website on behalf of the Committee to raise the Committee's public  
3 profile and educate the public and stakeholders on the Committee's positions.  
4

5 **Task Code 35: Current Events**

6 **Fees: \$144,819.50**

7 **Total Hours: 372.0**

8  
9 39. During the Application Period, FTI prepared regular and ad hoc media coverage  
10 summaries to monitor and assess developments related to PG&E's bankruptcy case, California  
11 wildfires, relevant legislation and regulatory issues, and other utilities in the state. FTI produced  
12 a recurring media clips package by compiling articles from trade, local, regional, and national  
13 media outlets to monitor and analyze developments, trends, and stakeholder sentiment on the  
14 above topics. FTI leveraged media coverage documents to compile and maintain a list of key  
15 stakeholders and third parties who weigh in publicly on the debate around wildfire liabilities, the  
16 Debtors' bankruptcy, and other key issues. This information helped keep the Committee and its  
17 advisors abreast of the latest developments impacting the Debtors and unsecured creditors.  
18  
19

20 **Task Code 37: Public Safety Power Shutoff**

21 **Fees: \$150,272.00**

22 **Total Hours: 271.6**

23  
24 40. The work performed in this task code included the analysis and due diligence  
25 required to understand the nature of and resulting implications of the Public Safety Power  
26 Shutoff events performed by the Debtors. The analysis included evaluations of weather  
27 conditions and benchmarking to similar historical circumstances as well as analysis on the  
28 potential impact and costs such shutoffs could have on the Debtors' estates. The conclusions

1 reached under these evaluations served to educate the Wildfire Mitigation Sub-Committee on  
2 key risks and impact to the Debtors' operations and potential financial penalties.

3  
4 **REASONABLENESS OF FEES**

5 41. FTI has received no payment and no promises for payment from any source other  
6 than the Debtors for services rendered or to be rendered in any capacity whatsoever in  
7 connection with the matters covered by this Fee Application. No agreement or understanding  
8 exists between FTI and any other entity (other than shareholders or employees of FTI), for the  
9 sharing of compensation received or to be received for services rendered in or in connection with  
10 these cases.  
11

12 42. FTI seeks compensation for actual, necessary professional services rendered and  
13 reimbursement of reasonable expenses incurred on behalf of the Committee during the  
14 Application Period. During the Application Period, FTI charged \$3,930,398.50 in fees. FTI  
15 submits that its fees are reasonable for the work performed in these cases and the results  
16 obtained.  
17

18 43. All of the services for which interim compensation is sought herein were rendered  
19 for and on behalf of the Committee and not on behalf of any other entity. FTI respectfully  
20 submits that the professional services rendered were necessary, appropriate and have contributed  
21 to the effective administration of the Debtors' chapter 11 cases and maximization of value. It is  
22 respectfully submitted that the services rendered to the Committee were performed efficiently,  
23 effectively and economically, and the results obtained have benefited the unsecured creditor  
24 body as a whole and the Debtors' estates.  
25

26 44. FTI believes that its billing rates in these Chapter 11 cases are reasonable billing  
27 rates for purposes of this Court's determination of the "reasonableness" of the fees for services  
28

1 rendered and are in accordance with FTI's Retention Application and retention order approved  
2 by this Court.

### 4 **REASONABLENESS OF EXPENSES**

5 45. During the Application Period, FTI incurred \$19,098.79 in expenses on behalf of  
6 the Committee. Detailed descriptions of FTI's expenses are included in Exhibit E.

7  
8 46. FTI believes that the expenses incurred are reasonable and economical relative to  
9 the services required by the Committee and were incurred as a direct result of FTI's  
10 representation of the Committee. These expenses are the type customarily charged to non-  
11 bankruptcy clients of FTI. None of the expenses relate to non-reimbursable overhead.

### 13 **CONCLUSION**

14  
15 47. In accordance with the factors enumerated in section 331 of the Bankruptcy Code,  
16 the amounts requested herein are fair and reasonable given (a) the complexity of the cases, (b)  
17 the time expended, (c) the nature and extent of the services rendered, (d) the value of such  
18 services, and (e) the costs of comparable services other than in a case under the Bankruptcy  
19 Code.

20 48. FTI submits that pursuant to the criteria normally examined in bankruptcy cases  
21 and based upon the factors considered in accordance with sections 330 and 331 of the  
22 Bankruptcy Code and Bankruptcy Rule 2016, the results achieved provide more than sufficient  
23 justification for approval of the compensation sought by FTI.

24  
25 49. As a result of FTI's efforts herein, it is respectfully submitted that FTI's efforts  
26 are resulting in a substantial benefit to the Committee and its constituents.

27 50. Pursuant to the Interim Compensation Order, notice of this Application and a  
28 copy of this application have been served upon the Notice Parties (as defined in the Interim

1 Compensation Order). FTI submits that, in light of the relief requested, no other or further notice  
2 need be provided.

3 51. WHEREFORE, FTI respectfully requests that the Court enter an order: (a)  
4 awarding FTI interim compensation for professional services provided to the Official Committee  
5 of Unsecured Creditors during the Application Period in the amount of \$3,930,398.50 and  
6 reimbursable expenses in the amount of \$19,098.79, totaling \$3,949,497.29; (b) authorizing and  
7 directing the Debtors to remit payment to FTI for such fees and expenses that have not yet been  
8 paid pursuant to the Interim Compensation Order, including the Holdback; and (c) granting such  
9 other relief as is appropriate under the circumstances.

26	11/13/2019	Wang, Gege	1.9	Create outlines for various possible approaches for a sampling based bottom up estimation of historical claims.
26	11/13/2019	Wang, Gege	2.4	Calculate summary statistics and create a presentation for the Prime Clerk claims register regarding information on the universe of claims against the Debtor for historical claims estimation.
26	11/13/2019	Wang, Gege	1.8	Create crosswalk regarding linking claimant to household in the BrownGreer data base for historical claims estimation.
26	11/13/2019	Thakur, Kartikeya	1.3	Write Python programs to reconcile claims from the Excel workbook of Prime Clerk Wildfire related claims report for historical claims estimation.
26	11/13/2019	Thakur, Kartikeya	1.9	Identify and remove duplicates from the BrownGreer data files for accurate historical claims estimation.
26	11/13/2019	Thakur, Kartikeya	2.7	Create a database crosswalk linking claimant to household in the BrownGreer data files for historical claims estimation.
26	11/13/2019	Salve, Michael	0.5	Review and analysis of the Prime Clerk database all claims against Debtor for specific fire event claims estimation.
26	11/13/2019	Salve, Michael	1.1	Review and summarize statistics from the Prime Clerk claims database to quantify the Debtor's historical claims estimation.
26	11/13/2019	Salve, Michael	1.7	Review and analyze the database of Prime Clerk claims on the universe of claims against the Debtors for historical claims estimation.
26	11/13/2019	Michael, Danielle	1.8	Analyze the Prime Clerk claims register for information by focusing on large monetary claims against the Debtors for historical claims estimation.
26	11/13/2019	Michael, Danielle	2.2	Create combined table for Subro/Plaintiff data and CMO5 Questionnaire to establish a master, detailed table for claims estimation.
26	11/13/2019	Michael, Danielle	0.9	Import Subro, Plaintiff, and CMO5 datasets into SQL database to query and analyze the datasets for claims estimation.
26	11/13/2019	Michael, Danielle	1.9	Create table that combines the PG&E Plaintiff data and Subro data for a detailed dataset on overlapping claims between the datasets for claims estimation.
26	11/13/2019	O'Donnell, Nicholas	1.8	Analyze and document contents of Proof of Claim forms uploaded to Prime Clerk website to gather information on historical wildfire claims.
26	11/13/2019	Michael, Danielle	1.1	Review and analyze the combined table for Subro/Plaintiff data and CMO5 Questionnaire to establish a master, detailed table for claims estimation.
26	11/13/2019	Barke, Tyler	2.0	Review the testimony from Steven Campora regarding the cause of the Tubbs Fire to evaluate the likelihood PG&E will be found responsible for starting the Tubbs Fire in 2017.
26	11/13/2019	Fuite, Robert	3.3	Review claims data from BrownGreer and Prime Clerk and create computer algorithms to match the claims databases to assist in the estimation of Debtor wildfire claims.
26	11/14/2019	Ng, William	0.5	Analyze modification to claims estimation analysis by major wildfire.
26	11/14/2019	Ng, William	3.2	Analyze stratification of categories wildfire proofs of claims data.
26	11/14/2019	Ng, William	0.4	Analyze current diligence requests for the Debtors with respect to the wildfire claims.
26	11/14/2019	Berkin, Michael	1.4	Analyze select proof of claim forms in connection with assessing wildfire claims.
26	11/14/2019	Berkin, Michael	1.0	Discuss approach and detailed plan to develop bottoms up claim estimate with internal team.
26	11/14/2019	Berkin, Michael	1.7	Analyze wildfire proof of claim report from claims administrator in connection with assessing wildfire claims.
26	11/14/2019	Berkin, Michael	0.8	Analyze PG&E safety culture and governance quarterly report in connection with related OII for assessing wildfire claims.
26	11/14/2019	Berkin, Michael	1.0	Develop workplan for preparing bottoms up claims estimate from claims forms and BrownGreer data.

26	11/19/2019	O'Donnell, Nicholas	0.6	Research publicly available sources to gather information on real estate appraisals to evaluate prepetition claims.
26	11/19/2019	O'Donnell, Nicholas	2.3	Write Stata code to prepare Prime Clerk proof of claim data for geocoding to facilitate systematic quantitative analysis of prepetition wildfire claims.
26	11/19/2019	O'Donnell, Nicholas	1.2	Write Stata program to standardize ad hoc subrogation data for quantitative analysis of proof of claim data on Prime Clerk website.
26	11/19/2019	O'Donnell, Nicholas	1.4	Write Stata code to standardize and clean location of loss addresses in proof of claim data to gather information on bottom-up prepetition claims analysis.
26	11/19/2019	O'Donnell, Nicholas	2.1	Load and clean Prime Clerk proof of claim form data into statistical software package for quantitative analysis of historical wildfire claims estimation.
26	11/19/2019	Mukherjee, Sameer	1.9	Review and provide comments on loss estimation analysis to gather information on prepetition claims estimation.
26	11/19/2019	Mukherjee, Sameer	2.1	Identify information needed to be supplemented for Prime Clerk claims to conduct a loss estimation analysis for pre-petition claims analysis.
26	11/19/2019	Mukherjee, Sameer	2.4	Review wildfire claims spreadsheet data from Prime Clerk to verify preliminary summary statistics for internal summary of data for prepetition claims analysis.
26	11/19/2019	Mukherjee, Sameer	1.1	Discuss current plan for loss estimation methodology for prepetition claims analysis.
26	11/19/2019	Fuite, Robert	2.1	Develop computer scripts to deduplicate addresses in the Prime Clerk and Ad Hoc Subrogation data files to assist with a bottoms-up statistical sampling approach to the claims estimation process.
26	11/20/2019	Thakur, Kartikeya	2.3	Analyze important data fields from the Ad Hoc Subrogation Group data file, the CAL FIRE DINS reports and the Prime Clerk Wildfire report for a sampling based bottom-up damage estimation of historical claims.
26	11/20/2019	Scruton, Andrew	1.6	Review draft analysis of CPUC fine claims settlement.
26	11/20/2019	Scruton, Andrew	1.6	Review updated top down claims estimates reflecting updated Governmental claims.
26	11/20/2019	Scruton, Andrew	2.1	Review reconciliations between Prime Clerk and Brown Greer claims databases.
26	11/20/2019	Berkin, Michael	0.9	Analyze Debtors' discovery letter brief in connection with assessing wildfire claims.
26	11/20/2019	Berkin, Michael	0.8	Analyze non-property proof of claims in connection with estimating wildfire claims.
26	11/20/2019	Berkin, Michael	0.5	Develop detailed agenda for internal wildfire liability status meeting.
26	11/20/2019	Berkin, Michael	1.4	Analyze response of Cal State Agencies re: designation of claims as unliquidated and subject to estimation.
26	11/20/2019	Berkin, Michael	0.4	Assess impact of claims participation rate on potential wildfire claims.
26	11/20/2019	Berkin, Michael	0.9	Analyze USA opposition to Debtors' designation of certain claim as unliquidated in connection with assessing wildfire claims.
26	11/20/2019	Berkin, Michael	0.7	Participate in internal wildfire liability status meeting.
26	11/20/2019	Berkin, Michael	0.7	Analyze Adventist opposition to Debtors' designation of certain claim as unliquidated in connection with assessing wildfire claims.
26	11/20/2019	Cavanaugh, Lauren	2.3	Process revisions to materials re: top down wildfire estimate.
26	11/20/2019	Cavanaugh, Lauren	0.8	Discuss analysis for bottom up wildfire claim estimate internally.

26	11/20/2019	Thakur, Kartikeya	1.9	Research all publicly available information regarding the expensive emerald destroyed in Camp fire and compare to other sources of information on emeralds a historical claims estimation analysis.
26	11/20/2019	Thakur, Kartikeya	2.6	Create a sampling outline for every category of damage estimation by identifying the combination check boxes from the proof of claims forms for a sampling based bottom-up damage estimation of historical claims.
26	11/20/2019	Salve, Michael	0.9	Document, review and analyze updated Prime Clerk database with Ad Hoc Subrogation claims database to estimate prepetition claims.
26	11/20/2019	Salve, Michael	1.7	Standardize, analyze, and match CAL FIRE DINS database with Ad Hoc Subrogation claims database to identify potential crosswalk criteria for prepetition claims estimation.
26	11/20/2019	Salve, Michael	1.7	Document and analyze the deficiencies in the proof of claim forms for a sampling based damage estimation of historical claims.
26	11/20/2019	Fuite, Robert	2.2	Write computer scripts for systematic matching of addresses and claimIDs for the Prime Clerk and Ad Hoc Subrogation Group data files for prepetition claims estimation.
26	11/20/2019	Fuite, Robert	3.2	Write computer scripts for geocoding matches and deduplicated addresses with the Prime Clerk and Ad Hoc Subrogation Group data files to assist with the statistical sampling and estimation of wildfire claim exposure.
26	11/20/2019	Michael, Danielle	1.3	Analyze and determine relevant data from the Ad-Hoc Subrogation Group data file, the CAL FIRE DINS reports and the Prime Clerk Wildfire report to determine how to construct a sampling based bottom-up damage estimation of historical claims.
26	11/20/2019	Michael, Danielle	2.4	Create Stata programs to clean and standardize addresses in the Ad Hoc Subrogation Group data file in order to perform address-based matching for sampling claims for the bottom-up damage estimation.
26	11/20/2019	Michael, Danielle	1.6	Construct protocol for Prime Clerk POC data address cleaning in order to combine Prime Clerk and Subro data for a complete dataset of overlapping claims between the two data files.
26	11/20/2019	Michael, Danielle	1.5	Analyze and document the limitations of available date from Prime Clerk and the Subro data files for sampling based bottom up estimation and to address shortcomings for historical claims estimation.
26	11/20/2019	O'Donnell, Nicholas	1.2	Write Stata code to geocode address in the ad hoc subrogation data and Prime Clerk proof of claim data to standardize addresses for reconciliation of datasets to gather information on claims estimation.
26	11/20/2019	O'Donnell, Nicholas	1.7	Write Stata code to standardize the location of losses reported in prepetition claims data to perform quantitative analysis of prepetition claims.
26	11/20/2019	Mukherjee, Sameer	1.9	Generate preliminary slides for team review with regards to prepetition wildfire claim analysis.
26	11/20/2019	Mukherjee, Sameer	1.7	Draft examples of claim categories from Prime Clerk data review to inform data analysis for pre-petition wildfire claim analysis.
26	11/20/2019	Mukherjee, Sameer	2.6	Review Prime Clerk claims to inform data analysis for pre-petition wildfire claim analysis.
26	11/20/2019	Mukherjee, Sameer	0.9	Meet with Wildfire analysis team to review sampling design for potential bottom up estimation for prepetition wildfire claim analysis.
26	11/20/2019	Fuite, Robert	1.7	Develop computer scripts for algorithmic matching and deduplication of claimIDs for the Prime Clerk and Ad Hoc Subrogation Group data files for wildfire claims estimation.
26	11/21/2019	Berkin, Michael	2.3	Analyze select filed proof of claims for duplication, potential fraud, and diligence in connection with assessing wildfire claims.
26	11/21/2019	Berkin, Michael	0.7	Analyze TCC brief in POR OII in connection with assessing wildfire claims.
26	11/21/2019	Berkin, Michael	1.0	Prepare comments to wildfire estimation claims update presentation in connection with assessing wildfire claims.

26	11/26/2019	Mukherjee, Sameer	1.6	Review and provide comments on prepetition claims database matching for wildfire claims estimation.
26	11/26/2019	Mukherjee, Sameer	2.1	Update summary tables in powerpoint for internal discussion re progress on database analysis for pre-petition wildfire claims estimation.
26	11/26/2019	Wang, Gege	2.4	Scrape CAL FIRE Damage Inspection report data (LaPorte Cherokee fire, McCourtney Lobo fire and Nuns fire) from PDF format to Excel format for purposes of building a bottom-up approach and pre-petition wildfire claim estimation.
26	11/26/2019	Wang, Gege	2.5	Scrape CAL FIRE Damage Inspection report data (Atlas fire, Calfire, Canyon fire and Cascade fire) from PDF format to Excel format in order to build a bottom-up approach and pre-petition wildfire claim estimation.
26	11/26/2019	Mukherjee, Sameer	1.4	Compute summary statistics by insured category proxy in Prime Clerk data for pre-petition wildfire claims estimation.
26	11/26/2019	Wang, Gege	1.9	Transform and clean scraped CAL FIRE Damage Inspection report data into format that is usable for the purpose of database matching and building a bottom-up approach.
26	11/26/2019	Michael, Danielle	1.5	Prepare data for LaPorte, Cherokee, Nuns and Pocket CALFIRE DINS 2017 wildfire PDF reports to output usable claims estimation data.
26	11/26/2019	Michael, Danielle	1.3	Prepare data for McCourtney and Lobo CALFIRE DINS 2017 wildfire PDF report to output usable claims estimation data.
26	11/26/2019	Michael, Danielle	2.3	Manually edit output for the Sulphur, Redwood, and Pocket 2017 CALFIRE DINS reports in order to create a usable data fire for claims estimations.
26	11/26/2019	Michael, Danielle	1.8	Prepare data for Redwood and Sulphur CALFIRE DINS 2017 wildfire PDF reports to output usable claims estimation data.

<b>Task Category</b>	<b>Date</b>	<b>Professional</b>	<b>Hours</b>	<b>Activity</b>
26	11/26/2019	Michael, Danielle	1.1	Analyze the current claims data files and determine what data joins are needed to provide a detailed claims estimation sample.
26	11/26/2019	Fuite, Robert	2.4	Review computer scripts on geocoding of claim addresses from various claims databases (BrownGreer / Prime Clerk / Subrogation) for the purposes of assisting with the assessment of estimating prepetition claims.
26	11/26/2019	Fuite, Robert	2.3	Develop statistical computer programs and algorithms for cleaning, standardization and geocoding of addresses and names from disparate claims datasets (Prime Clerk / BrownGreer / Subrogation) for the purposes of assisting in the assessment of wildfire claims exposure analysis.
26	11/26/2019	Fuite, Robert	1.8	Write computer algorithms to clean and standardize names and addresses from Prime Clerk, BrownGreer, and Subrogation datasets to assist in the assessment of wildfire claims exposure analysis.
26	11/26/2019	O'Donnell, Nicholas	0.6	Review and document datasets available for prepetition claims estimation.
26	11/26/2019	O'Donnell, Nicholas	2.2	Write Stata code to merge BrownGreer claims with claims filed in Prime Clerk to quantify claims across dataset and estimate prepetition claims.
26	11/26/2019	O'Donnell, Nicholas	1.7	Write Stata code to quantify structures destroyed in CAL FIRE Damage Inspection reports for 2017 North Bay fires for claims estimation.
26	11/26/2019	O'Donnell, Nicholas	1.9	Write SQL scripts to quantify claims filed in BrownGreer by fire and address to gather information for claims estimation.
26	11/26/2019	O'Donnell, Nicholas	1.6	Write Stata programs to clean and standardize CAL FIRE Damage Inspection reports to reconcile with addresses listed on prepetition claims to estimate property claims in Prime Clerk.
26	11/26/2019	Thakur, Kartikeya	2.6	Perform additional research on finding documents illustrating the timeline of the Ad-Hoc Subrogation Group filing for historical claims estimation.
26	11/26/2019	Thakur, Kartikeya	2.9	Create visuals to illustrate the purpose of the matching exercise for historical claims estimation.
26	11/26/2019	Thakur, Kartikeya	1.6	Write and debug code to perform the name and address based matching between two of the four datasets (PrimeClerk and Ad Hoc Subrogation Group) for historical claims estimation.
26	11/26/2019	Thakur, Kartikeya	2.1	Calculate summary statistics related to the matching process for Prime Clerk and Ad Hoc Subrogation Group data to evaluate the quality of the matching process and the data available for claims estimation.
26	11/27/2019	Star, Samuel	0.5	Attend call with internal team re: status of bottoms up wildfire claims.
26	11/27/2019	Scruton, Andrew	1.9	Review status of analysis of wildfire claim databases.
26	11/27/2019	Berkin, Michael	0.5	Participate in internal wildfire liability status meeting.
26	11/27/2019	Berkin, Michael	1.3	Analyze USA notice of filing of opposition to notice of Debtors' designation of claims filed by various public entities as unliquidated in connection with assessing wildfire claims.
26	11/27/2019	Berkin, Michael	0.3	Develop detailed agenda for internal wildfire liability status meeting.
26	11/27/2019	Berkin, Michael	0.9	Analyze memorandum of point related to Ghost Ship fire in connection with assessing Debtor liabilities.
26	11/27/2019	Berkin, Michael	0.5	Analyze memorandum decision on inverse condemnation in connection with assessing wildfire claims.
26	11/27/2019	Berkin, Michael	0.8	Develop work plan for additional analyses supporting wildfire claims estimate.
26	11/27/2019	Stein, Jeremy	2.3	Update analysis for breakdown of liquidated and unliquidated public entity claims.
26	11/27/2019	Stein, Jeremy	1.2	Update diligence request list of items re: claims analysis.

26	11/27/2019	Thakur, Kartikeya	2.1	Review the data files and analyze the probable meanings of a match in a sampling based bottom up estimate using available historical claims information.
26	11/27/2019	Thakur, Kartikeya	2.4	Calculate summary statistics related to the matching process for Prime Clerk and Ad-Hoc Subrogation Group data to evaluate the accuracy of the matches for claims estimation.
26	11/27/2019	Thakur, Kartikeya	1.8	Analyze and document the outcomes of the matching process for the four datasets and associated numbers related to the data for claims estimation.
26	11/27/2019	Thakur, Kartikeya	1.3	Review the data files and document the possible caveats regarding matches to establish the limitations of the approach of a sampling based bottom up estimate using available historical claims information.
26	11/28/2019	Scruton, Andrew	1.7	Prepare comments on summary presentation of analysis of claims databases.
26	11/28/2019	O'Donnell, Nicholas	1.1	Write Stata programs to quantify claims in BrownGreer database for claims estimation.
26	11/29/2019	Salve, Michael	0.4	Create a sampling outline for every category of damage estimation for a sampling based bottom-up damage estimation of historical claims.
26	11/29/2019	Salve, Michael	2.3	Review geocoding results for property address matches between different claims databases for prepetition claims estimation.
26	11/29/2019	Salve, Michael	1.6	Review and assess the matching the Prime Clerk, Subrogation, BrownGreer and CalFire DINS claims databases and document the purpose of matching for historical claims estimation.
26	11/29/2019	Salve, Michael	1.4	Analyze and document quality control process for CalFire DINS claims database conversion to Excel spreadsheets.
26	11/29/2019	Salve, Michael	1.6	Analyze and review Prime Clerk claims database value standardization and Geocoding.
26	11/29/2019	Salve, Michael	0.8	Analyze and document Ad Hoc Subrogation Group claims database for address matching to Prime Clerk claims database.
26	11/29/2019	Salve, Michael	1.7	Analyze and process field standardization for CalFire DINS claims database.
26	11/29/2019	Salve, Michael	0.4	Analyze BrownGreer claims database and the connectivity of the three Excel spreadsheets.
26	11/29/2019	Michael, Danielle	1.1	Create batches for the CAL FIRE Damage Inspection report master table to run the addresses through a geocoding querying service in order to join the data on the Prime Clerk dataset.
26	11/29/2019	Michael, Danielle	1.9	Create and run STATA script to process second batch of the CAL FIRE Damage Inspection report excel master workbook through the geocoding service, opencage, to create a proper address field to join the Prime Clerk dataset.
26	11/29/2019	Michael, Danielle	1.3	Create and run STATA script to process first batch of the CAL FIRE Damage Inspection excel master workbook through the geocoding service, opencage, to create a proper address field to join the Prime Clerk dataset.
26	11/29/2019	Michael, Danielle	1.7	Create and run STATA script to process third batch of the CAL FIRE Damage Inspection excel master workbook through the geocoding service, opencage, to create a proper address field to join the Prime Clerk dataset.
26	11/29/2019	Michael, Danielle	2.1	Edit the STATA queries during the geocoding processing so the CAL FIRE Damage Inspection addresses are properly geocoded.
26	11/29/2019	O'Donnell, Nicholas	1.4	Write programs to systematically link claims in BrownGreer to Prime Clerk to quantify claims in both databases and estimate prepetition claims.
26	11/29/2019	O'Donnell, Nicholas	0.6	Quantify loss locations in CAL FIRE Damage Inspection report data and Prime Clerk subrogation data to estimate property claims in Prime Clerk.

26	11/29/2019	O'Donnell, Nicholas	1.4	Review and document claims datasets available for claims estimation to create master database of all claims.
26	11/29/2019	O'Donnell, Nicholas	2.1	Write programs to clean and standardize claimant names in BrownGreer database to facilitate matching to claims in Prime Clerk and Ad Hoc Subrogation data for prepetition claims estimation.
26	11/29/2019	O'Donnell, Nicholas	2.3	Write programs to clean and normalize claimant names in Prime Clerk to create standard format that will allow for systematic linking of Prime Clerk to BrownGreer claims for prepetition claims estimation.
26	11/30/2019	Ng, William	0.3	Review motion of Ghost Ship Fire plaintiffs to lift stay.
26	11/30/2019	Berkin, Michael	2.2	Prepare revisions to draft of common dataset presentation in connection with assessing wildfire claims estimate.
26	11/30/2019	Salve, Michael	0.6	Review automated normalization of data fields used in algorithm that creates geocoding for property address matches between different claims databases.
26	11/30/2019	Salve, Michael	1.5	Review algorithm that creates geocoding for property address matches between different claims databases for purposes of creating bottom-up damage estimation.
26	11/30/2019	Salve, Michael	0.4	Validate and analyze claim count matching between independent claims databases using Geocodes.
26	11/30/2019	Salve, Michael	1.6	Validate and analyze claim count matching between independent claims databases.
26	11/30/2019	Fuite, Robert	2.1	Develop computer scripts and algorithms for matching and linking of various claims datasets (Prime Clerk / BrownGreer / Subrogation) to assist with the creation of sampling methods to estimate wildfire claim exposure.
26	11/30/2019	Fuite, Robert	1.4	Review computer scripts on geocoding of claim addresses from various prepetition claims databases for the purposes of assisting with the assessment of estimating wildfire claims exposure.
26	11/30/2019	O'Donnell, Nicholas	2.3	Write Stata programs to merge Ad Hoc Subrogation claims with CAL FIRE Damage Inspection reports to quantify insured losses by type of structure destroyed for prepetition claims estimation.
26	11/30/2019	O'Donnell, Nicholas	1.1	Write Stata code to analyze Prime Clerk prepetition wildfire and compare to other prepetition claims sources for claims estimation.
26	11/30/2019	O'Donnell, Nicholas	0.8	Analyze prepetition claims present in Ad Hoc subrogation data and systematically link to Prime Clerk claims for overall claims estimation.
26	11/30/2019	O'Donnell, Nicholas	1.4	Analyze CAL FIRE Damage Inspection report data to quantify structures destroyed by wildfire and compare to wildfire claims for claims estimation.
26	11/30/2019	Salve, Michael	1.9	Analyze and validate the reasons for various matching's and non-matchings between properties and individuals across the claims databases.
26	12/1/2019	O'Donnell, Nicholas	0.6	Analyze prepetition claims in Prime Clerk database to quantify claims for claims estimation.
26	12/1/2019	O'Donnell, Nicholas	0.9	Develop programs to quantify types of claims and plaintiffs in BrownGreer database and compare to Prime Clerk for claims estimation.
26	12/1/2019	O'Donnell, Nicholas	1.8	Analyze claims found in Prime Clerk that can be systematically matched to BrownGreer for claims estimation.
26	12/1/2019	O'Donnell, Nicholas	2.7	Create programs to systematically match Prime Clerk data to CAL FIRE damage inspection reports to quantify claims by type of structure damaged for prepetition claims estimation.
26	12/1/2019	Michael, Danielle	2.1	Query the Prime Clerk, Ad-Hoc Subrogation Group data, and CAL FIRE DINS dataset to determine overlapping addresses and report out the counts for the matched and unmatched records to aid the understanding of the claim estimation process.

<b>Task Category</b>	<b>Date</b>	<b>Professional</b>	<b>Hours</b>	<b>Activity</b>
29	10/31/2019	Michael, Danielle	1.7	Analyze, review and document the contents of files flagged for determined keywords from the Milbank Relativity website and summarize the files for data on claims estimation and wildfire liability.
29	10/31/2019	Michael, Danielle	2.4	Research and begin to quantify the extent of damage and claims from the ongoing CA fires using average home values, current reports, estimated acres, etc. for wildfire risk modeling.
29	10/31/2019	Thakur, Kartikeya	1.6	Quantify the extent of damage from the ongoing California fires using average values, estimated acres/structures destroyed, etc. for future risk modeling.
29	10/31/2019	Scruton, Andrew	1.1	Review final edits to analysis of implications of post-petition wildfires.
29	10/31/2019	Berkin, Michael	0.3	Review potential liability for loss from PSPS events memo from Counsel.
29	10/31/2019	Berkin, Michael	0.6	Review treatment of post-petition wildfire claims memo from Counsel.
29	10/31/2019	Cavanaugh, Lauren	0.5	Discuss developments on post-petition wildfires internally.
29	10/31/2019	Cavanaugh, Lauren	0.8	Begin work on post-petition fire damages model.
29	11/1/2019	Ng, William	0.4	Assess current status of the Kincade fire and implications for postpetition liabilities.
29	11/1/2019	Salve, Michael	0.9	Quantify potential damage from the current California fires using assumed historic values for future risk modeling.
29	11/1/2019	Mukherjee, Sameer	2.3	Summarize files on the Relativity for presentation on PSPS-related documents and data for future risk modeling.
29	11/1/2019	Mukherjee, Sameer	1.9	Use high-level estimates as inputs into the quantum of damages from ongoing California fires for modeling future risk.
29	11/1/2019	Mukherjee, Sameer	1.7	Verify the estimate of the number of structures exposed to current California fires with publicly available information for modeling future risk.
29	11/1/2019	Thakur, Kartikeya	2.2	Replicate the estimated number of structures threatened by the ongoing California fires using publicly available information for future risk modeling.
29	11/1/2019	Barke, Tyler	3.1	Analyze the substations for the Geyser #9 Lakeville 230-kV transmission line re: inspection records, mapping, and possible cause of the Kincade Fire.
29	11/2/2019	Cavanaugh, Lauren	1.2	Create post-petition claims estimation model.
29	11/2/2019	Stein, Jeremy	2.2	Document post-petition wildfire research and exposure data to estimate damages.
29	11/3/2019	Cavanaugh, Lauren	0.3	Continue building post-petition claims estimation model.
29	11/3/2019	Thakur, Kartikeya	2.3	Research and analyze containment and estimated damages from the Kincade Fire using publicly available information for future risk modeling.
29	11/3/2019	Thakur, Kartikeya	2.6	Review the files downloaded from the PGE website to look for facts pertinent to the matter for future risk modeling data.
29	11/4/2019	Ng, William	0.8	Review analysis of estimated postpetition wildfire claims liability.
29	11/4/2019	Ng, William	0.6	Evaluate methodology for the estimation of postpetition wildfire claims liabilities.
29	11/4/2019	Cavanaugh, Lauren	1.8	Prepare estimates of Kincade fire impact for post-peition claims estimation model.
29	11/4/2019	Thakur, Kartikeya	2.9	Analyze and review PSPS related documents from the Relativity website and establish how PG&E PSPS protocols evolved overtime for future risk modeling.
29	11/4/2019	Thakur, Kartikeya	1.4	Collect data on the utilities' PSPS scheduling protocols for future wildfire risk modeling.
29	11/4/2019	Michael, Danielle	1.6	Research PSPS related documents from the Relativity website to determine which files establish how PG&E PSPS protocols evolved overtime for future risk modeling.
29	11/4/2019	Michael, Danielle	1.5	Analyze and summarize the files recently added to categories of interest from PG&E's discovery website for historical claims data.

<b>Task Category</b>	<b>Date</b>	<b>Professional</b>	<b>Hours</b>	<b>Activity</b>
29	11/4/2019	Scruton, Andrew	2.1	Review report to Committee on analysis of data re: Kincade fire.
29	11/5/2019	Ng, William	0.7	Review analyst reporting on the economic impact of recent postpetition wildfires.
29	11/5/2019	Cavanaugh, Lauren	1.7	Prepare slide deck on Kincade fire estimate.
29	11/5/2019	Stein, Jeremy	2.4	Review and revise documentation for Kincade Fire estimate.
29	11/5/2019	Stein, Jeremy	2.8	Prepare analysis for estimation of damages re: Kincade fire.
29	11/5/2019	Stein, Jeremy	2.6	Prepare documentation to present damage estimates for Kincade Fire.
29	11/5/2019	Stein, Jeremy	1.3	Continue to prepare documentation to present damage estimates for Kincade Fire.
29	11/5/2019	Thakur, Kartikeya	1.2	Summarize and document key commonalities and key differences in the PSPS protocols of SCE and PG&E for future risk modeling.
29	11/5/2019	Thakur, Kartikeya	2.4	Compare and contrast PG&E and SCE PSPS events and prevailing weather forecasts before them to analyze their sensitivity to fire weather for future risk modeling.
29	11/5/2019	Thakur, Kartikeya	2.9	Document weather forecasts before 2019 PSPS events for SCE and PG&E for future risk modeling.
29	11/5/2019	Michael, Danielle	1.1	Document PG&E PSPS related documents to establish how PG&E PSPS protocols evolved overtime for future risk modeling.
29	11/5/2019	Michael, Danielle	0.8	Research PG&E and SCE PSPS weather forecasts during PSPS and prior wildfire events to analyze sensitivity to fire weather for wildfire modeling.
29	11/5/2019	Michael, Danielle	1.7	Review and summarize PG&E PSPS documents to determine which files are needed to show how PG&E's PSPS protocol has evolved for risk modeling.
29	11/5/2019	Michael, Danielle	1.2	Download and research PSPS related documents from the Milbank Relativity website to discover documents that provide insight on how PG&E PSPS protocols evolved overtime for future risk modeling.
29	11/6/2019	Ng, William	0.9	Review draft report regarding estimation of postpetition wildfire damages.
29	11/6/2019	Cavanaugh, Lauren	0.8	Prepare updated slide deck on Kincade fire estimate.
29	11/6/2019	Cavanaugh, Lauren	1.2	Discuss pre-petition and Kincade wildfire estimates internally.
29	11/6/2019	Michael, Danielle	1.4	Download and summarize PSPS related documents from the Milbank Relativity website to discover documents that provide insight on how PG&E PSPS protocols evolved overtime for future risk modeling.
29	11/6/2019	Michael, Danielle	0.9	Research various sources for weather forecasts prior to the 2019 PSPS events for SCE and PG&E for future risk modeling.
29	11/6/2019	Michael, Danielle	1.1	Compare and contrast PG&E and SCE PSPS event conditions and weather history to analyze each sensitivity to fire for wildfire modeling.
29	11/6/2019	Michael, Danielle	1.4	Document and compare and contrast historical weather forecasts for SCE and PG&E PSPS events to establish baseline fire sensitivities for future risk modeling.
29	11/6/2019	Salve, Michael	0.8	Analyze ongoing Kincade Fire weather conditions.
29	11/8/2019	Ng, William	0.3	Review summary of media reporting regarding inspections around the transmission line connected to the Kincade fire.
29	11/13/2019	Ng, William	0.4	Analyze future wildfires funding scenarios based on AB1054 provisions.
29	11/13/2019	Ng, William	0.3	Attend call with creditor to discuss the provisions of the wildfire fund for future claims.
29	11/13/2019	Cavanaugh, Lauren	0.7	Present on post-petition and public entity claims on the wildfire subcommittee call.
29	11/18/2019	Thakur, Kartikeya	0.9	Review, collate, and summarize the files downloaded from the PG&E website using Python programs for future wildfire risk modeling.
29	12/10/2019	Berkin, Michael	2.1	Analyze pre-hearing trial transcript regarding OII on emergency disaster in connection with assessing potential liabilities.
